

## ROCKET SHIP MARKERS

## Meet the Materials

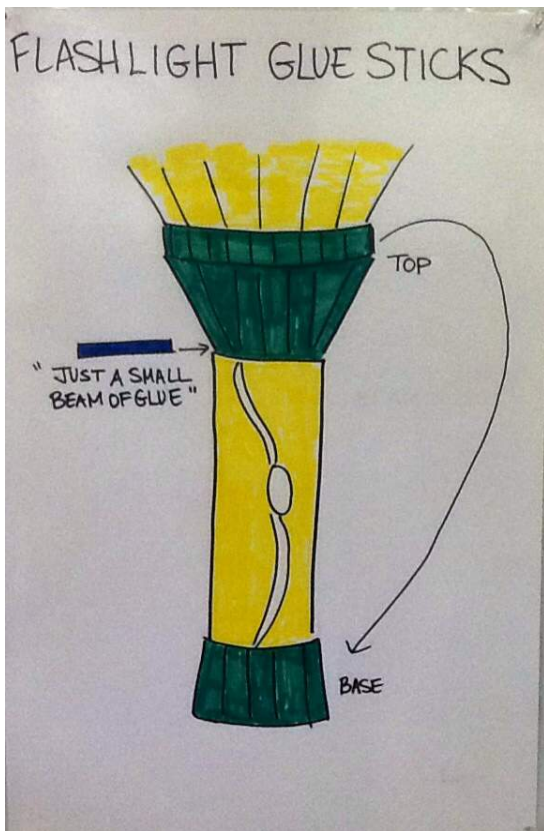

Our brushes dance across the paper. Like ballerinas, they like to keep their toes pointed.

## BALLEERINA PAINT BRUSHES

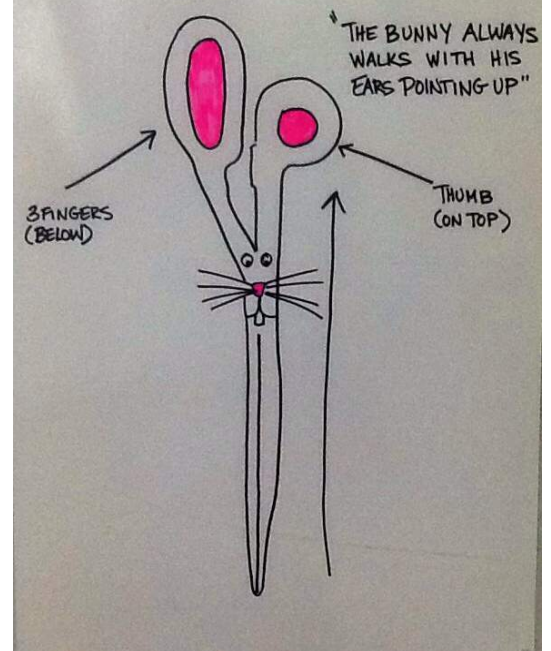

Our markers are like rocket ships. First the cap blasts off, then it goes on the bottom to give the rocket power and before we grab another marker we "complete the mission" and return our cap to the top!

## FLASHLIGHT GLUE STICKS

The wide end of the flashlight comes off and attaches to the bottom. Remember, just a little glue is all it takes!

## BUNNY EAR SCISSORS

Our scissors have two loopy ears like a bunny. When we carry or pass them, we always keep the bunny's ears pointing up.
