Brent Water Testing Results
Throughout the course of the year, DC Public Schools (DCPS) and the DC Department of General Services (DGS) partner to coordinate lead testing of drinking water sources within all schools. On November 8, 2017, annual testing took place at Brent Elementary School.

Per District of Columbia law, all drinking water sources must test below 5 ppb (parts per billion), which is the standard to which the Food and Drug Administration (FDA) regulates bottled water. DCPS is pleased to share that all of the drinking water sources sampled this year within Brent ES tested below 5 ppb.

Please see attached letter for more details.
